

Indonesia, Item 14

Mr. Chair.

Indonesia takes note the Committee on the Peaceful Uses of Outer Space endorsed the seven thematic priorities of the fiftieth anniversary of the United Nations Conference on the Exploration and Peaceful Uses of Outer Space (UNISPACE+50), as well as their objectives and mechanisms. The Action Team on Exploration and Innovation was established as the mechanism under thematic priority 1: Global partnership in space exploration and innovation in accordance with its terms of reference (A/AC.105/2017/CRP.21). The Action Team has resulted recommendation “Thematic priority 1. Global partnership in space exploration and innovation” (A/AC.105/1168).

Indonesia is of the view the importance of space exploration, including human space exploration beyond low Earth orbit with increased cooperation and roles between developed countries, developing countries, and the private sector. Space exploration and innovation is a scientific and technical frontier to achieve sustainable development and human civilization.

I thank you, Mr. Chair.
