

**Committee on the Peaceful
Uses of Outer Space****Information furnished in conformity with the Convention
on Registration of Objects Launched into Outer Space****Note verbale dated 15 June 2007 from the Permanent Mission of
the Russian Federation to the United Nations (Vienna) addressed
to the Secretary-General**

The Permanent Mission of the Russian Federation to the United Nations (Vienna) presents its compliments to the Secretary-General of the United Nations and, in accordance with article IV of the Convention on Registration of Objects Launched into Outer Space (General Assembly resolution 3235 (XXIX), annex), has the honour to transmit registration data on space launches by the Russian Federation for March and April 2007 and also on the space objects that ceased to exist during that period (see annexes I and II).

Annex I

Registration data on space launches by the Russian Federation for March 2007*

1. In March 2007, no space objects belonging to the Russian Federation were launched.
2. In March 2007, the Russian Federation did not launch any space objects on behalf of foreign clients.
3. The following space objects ceased to exist in March 2007 and were no longer in Earth orbit as at 2400 hours Moscow time on 31 March 2007:

1978-067A (Cosmos-1025)

2006-045A (Progress M-58)

* The registration data are reproduced in the form in which they were received.

Annex II

Registration data on space launches by the Russian Federation for April 2007*

1. In April 2007, the following space object belonging to the Russian Federation was launched:

Number	Name of space object	Date of launch	Basic orbital characteristics				General function of space object
			Apogee (km)	Perigee (km)	Inclination (degrees)	Period (minutes)	
3219	Soyuz TMA-10 (launched from the Baikonur launch site)	7 April	260	199	51.7	88.8	Delivery to the International Space Station of the crew of Expedition 15, consisting of F. Yurchikhin and O. Kotov, and Visiting Crew 12, consisting of C. Simonyi (United States of America).

2. In April 2007, the Russian Federation launched the following space objects on behalf of foreign clients:

On 10 April 2007, the Canadian telecommunications satellite Anik-F3 was launched into Earth orbit by a Proton-M carrier rocket with a Breeze-M booster from the Baikonur launch site;

On 17 April 2007, the following satellites were launched into Earth orbit by a Dnepr carrier rocket from the Baikonur launch site:

Egyptian remote sensing satellite Egyptsat-1;

Saudi Arabian remote sensing satellite Saudisat-3;

Saudi Arabian communications satellites Saudicomsat-3, Saudicomsat-4, Saudicomsat-5, Saudicomsat-6 and Saudicomsat-7;

United States experimental satellite MAST-1;

United States satellites Polysat-3 (CP3) and Polysat-4 (CP4) for scientific and educational purposes;

United States satellite CAPE-1 for scientific and educational purposes;

Colombian satellite Libertad-1 for scientific and educational purposes and Earth surface imaging;

United States technological satellite Aerocube;

United States technological satellite CSTB-1.

3. The following space object ceased to exist in April 2007 and was no longer in Earth orbit as at 2400 hours Moscow time on 30 April 2007: 2006-040A (Soyuz TMA-9).

* The registration data are reproduced in the form in which they were received.
